QUALITY POLICY (ISO9001:2015 Clause 5.2)

It is the stated quality policy of BJD Crushers Ltd to satisfy the requirements of our customers in any way that we can. This can only be achieved by operating a comprehensive, co-ordinated quality system which assures the quality of all products, processes and services offered by the company. In addition we will ensure compliance with all applicable statutory & regulatory requirements.

We recognise that this requires the commitment of everyone & we will always strive to prevent mistakes & eliminate the causes of non conformances. It is our aim to continually improve, ensuring that all of our customers receive the products or services they require, when they want them & at a fair price.

Our quality system is designed to meet the requirements of ISO 9001:2015 and will be implemented across the whole organisation, embracing all of the activities which impact upon our customers.

Our strategic aim is to continually improve upon our products, processes and systems by setting quality objectives during our Management reviews that are measurable and are reviewed at least annually.
