

# FLEXMILL CRUSHER RANGE

## High throughput crushers with low operating costs

The Flexmill offers the operator a new approach in flexibility of design and incorporates features which give advantages in operation and maintenance, leading to increased profitability.

It has the option of reversible operation which gives maximum utilisation of hammer life, variety of product through changing rotor direction, whilst making valuable savings on down-time.

### BENEFITS

- High reduction ratios and high quality good shaped product
- Capacities up to 1000 TPH depending on duty
- Increased wear life
- Easy access for low cost maintenance
- Quick fit interchangeable liners
- Modular construction – fabricated frames
- Choice of bearing design
- Long life 'Easy Lube' bearings
- Remote control options
- Optional feed opening

### SPECIFICATION SUMMARY
